## 2019 OVERALL SCORE

**3.1** The overall score is based on Ridership, Safety, Network, Reach and Acceleration. It includes publicly available data and data gathered from our Community Survey, City Snapshot, and Bike Network Analysis.

★★★★★

## SAFETY |

Measures how safe it is and feels to ride a bike.

**2.4**

All mode fatalities and injuries	2.0
Bicycle fatalities and injuries	2.5
Perceptions of safety	3.1

★★★★★

## REACH |

Measures how well the bike network serves everyone equally.

**3.3**

Demographic gap in BNA	4.0
Bicycle commuting rates by gender	1.2

★★★★★

## RIDERSHIP |

Measures how many people are riding.

**1.4**

Bicycle commuting	0.1
Recreational bike riding	2.1
Perceptions of bike use	2.8

★★★★★

## NETWORK |

Measures how well the bike network connects people to destinations.

**2.4**

Bicycle Network Analysis (BNA)	2.0
Perceptions of network quality	3.8

★★★★★

## ACCELERATION |

Measures the city's commitment to growing bicycling quickly.

**3.7**

Growth in bike facilities and events	3.7
Perceptions of progress	3.9

★★★★★

# TEN WAYS TO IMPROVE YOUR SCORE

- 1** Hold a monthly social ride for new bikers. Choose flat, quiet routes and travel slowly. Count attendees.
- 2** Next 12-24 months: Launch or expand public bike share. Count rides.
- 3** 12 months: Identify high crash corridors and work with locals to find infrastructure fixes. Measure baseline safety.
- 4** 12 months: Cut default residential speed limits to 20 mph or less. Catalog changes needed to bring streets to a 20 mph design speed.
- 5** Plan a bike network linking multiple districts. Use neighborhood bikeways on quiet streets, protected bike lanes on busy ones. Build in 24 months.
- 6** Improve bike/walk links to parks, trails & mountain bike areas. Make at least one new link each year, prioritizing areas with low recreation access.
- 7** 12 months: Hold low-commitment monthly rides aimed at marginalized populations — children, seniors, people of color, immigrants. Count attendees.
- 8** Explicitly prioritize infrastructure in disinvested areas above well-to-do areas. Prepare to address related concerns like housing or policing.
- 9** Look to capital budgets or voters for dedicated funding for low-stress bikeways and programs. Make a plan to get dedicated funding within 24 months.
- 10** Return to quick-build projects to make them permanent. Use feedback & data gathered to improve designs. Aim for one such upgrade each year.

- 1** Hold a monthly social ride for new bikers. Choose flat, quiet routes and travel slowly. Count attendees.
- 2** Next 12-24 months: Launch or expand public bike share. Count rides.
- 3** 12 months: Identify high crash corridors and work with locals to find infrastructure fixes. Measure baseline safety.
- 4** 12 months: Cut default residential speed limits to 20 mph or less. Catalog changes needed to bring streets to a 20 mph design speed.
- 5** Close small gaps that link large portions of your existing bike network. Make at least two such links each year.
- 6** Connect recreational biking sites to the transportation network. Get before/after data on recreational facility use.
- 7** Partner with community groups on door-to-door surveys, focus groups, or other personal outreach to assess transportation and recreation needs.
- 8** Analyze who isn't biking in underserved areas, the barriers residents indicate, and potential solutions.
- 9** Poll-test perceptions of bikes and infrastructure. Build metrics for understanding how people's perceptions will change over time.
- 10** Make a plan to enlarge your dedicated funding for biking improvements. Spend more than 50% in underserved communities.
